Hi, everyone - here is my Aussie cell phone number: 0481 255 856. If you are dialing from a U.S. number, you might need to dial [011 61 481 255 856](#), but I'm not sure.

Also, please remember that people drive on the opposite side of the road here. PLEASE remember to look both ways when you cross streets. And you'll note that people walk the same way traffic goes, that is, they walk to the left instead of the right.

Also, a note about your flight. The flights to Sydney are often not full. I'd recommend going online before your flight and checking seat availability; if there are empty rows, you might want to move yourself to one of them.

Please let me know if you need anything before we meet on Sunday.

Prof. Abriel
